Murder.

On the 27th inst. the remains of a man were found in the Rose and Pearl Mine, Mount Magnet. Death had evidently been caused by a blow on the left temple with a sharp instrument such as a tomahawk. The body had been dismembered in a neat and accurate manner, and the limbs after amputation again disjoined at the knees and elbows. The body and head were found in a different part of the workings to the place where the limbs were found; the lower part of the body is still missing. The remains are those of a man of about 45 years of age, reddish hair and beard, forehead very receding and low, several teeth are missing from each jaw, the fingers are well shaped, the nails have been carefully trimmed, and the hands do not seem to be those of a man who has done much hard work. The body was much decomposed. No clothing has been found. The head and features resemble somewhat that of a miner named James Peterson, who has been missing from Mt. Magnet for about two months. Description: Swede, medium build, height 5ft. 7 or 8 inches, reddish hair and beard, fresh complexion, long features.

Special inquiry is to be made by police, to trace James Peterson, and for any information bearing upon the matter. Result of inquiry to be at once notified to the Criminal Investigation Branch, Perth.—A1/10952, 27th November, 1898.
